		mm	200

- Note: A condensate drain is required to be fitted, from the rear drain point, to discharge condensed water accumulated during operation -

Key Features

Complete packaged unit with built in evaporator and condenser, no external unit required. Its wall mounted design enables air intake to condenser and discharge from condenser, through the wall via supplied inlet/outlet grilles.

The Climapac range of twin duct air conditioners from Powrmatic offers cooling, heating from heat pump, and extra PTC heating from the side mounted distinctive speaker style heaters.

The unit is fully remote controlled with temperature and timer options, and comes with a subtle LCD display, conveniently located on the lower front panel of the unit.

This highly attractive polished black finish twin duct unit will add equal value to the office, apartment or hotel room.

The Climapac does not require a F-Gas certified engineer to install.

Applications

- Offices
- Shops
- Apartments, Houses (Domestic use)
- Temporary Buildings
- Hotels, Motels & Serviced Suites
- Communication Rooms
- Gymnasiums
- Dental Surgeries
- Medical Practices
- Caravans
